Cash reserve against net deposit and note liabilities, 70.6 per cent.	
Cash reserve against net deposit liabilities after setting aside 40 per cent gold reserve against aggregate net liabilities on Federal Reserve notes in circulation, 71.4 per cent.	

CHARGE CHILD-DESERTION

Police Seek Maud Jefferson, Colored, Who Abandoned Infant on August 10.

Police last night were searching for Maud Jefferson, colored, who is wanted on a charge of child desertion. Lucy Booker, colored, 18 North Thirty-first Street, reported to the police yesterday that a woman had left an infant with her on August 10, and had departed, saying she would return shortly. Policeman Wyatt, who received the report, noticed the stamp of Virginia Hospital on one of the garments worn by the child, and carried it there.

Dr. F. P. Fletcher, chief interne, at once recognized the infant as a former patient and furnished the name of the mother. The physician showed the officer where the sixth finger had been amputated from each of the infant's hands, establishing a definite identification. The mother has not been located.

Charged With Reckless Driving.

Paul J. Beattie was arrested yesterday afternoon by Policeman Brennan on a charge of recklessly driving an automobile through the streets.

Policeman Allen later in the afternoon arrested William Kelly on a similar charge.

Suspected of Insanity.

J. D. Eberhardt, forty years old, was arrested by Policemen Jones and Bosquet yesterday afternoon on a warrant charging him with being suspected of insanity. He was sent to the local hospital.

Belt in Night Sky Causes Excitement

Richmond and Its Environs
Speculate Over Unusual
Heavenly Phenomenon.

Stretching across the zenith last night a well defined belt of light excited keen speculation in Richmond and surrounding country. The strange appearance was first noticed about 10 o'clock, increased rapidly in brilliancy, and then disappeared about 10:30 o'clock.

The path of light in the heavens appeared somewhat like the beam cast by a search light. It was thin and filmy but perfectly distinct and clear-cut.

At the same time in some places was noticed a glow in the North, like the reflection cast upon the sky by the lights of a city. The halo was attributed to the aurora borealis.

WIRE SERVICE CRIPPLED BY AURORA BOREALIS

Described by Officials in New York as
Most Depressing on Circuits in
Many Years.

NEW YORK, August 26.—Telephone and telegraphic service throughout the East and West were seriously crippled tonight by the aurora borealis, described by officials of the companies in this city as perhaps the most depressing on wire circuits in many years.

The disturbance, according to the officials, was first observed about 7 P. M. By midnight, it was said, the service of the telegraph companies east of Chicago and as far west as Minneapolis was only about 50 per cent normal. Southern circuits were not much affected.

It was explained that in some instances the foreign battery caused by earth currents induced from seventy-five volts positive to seventy-five volts negative. At Minneapolis, where it was said the sky was unusually bright, both telegraph and telephone circuits virtually were put out of commission for several hours.

The fact that wires running east and west suffered more than those traveling in a southern direction was attributed to parallel earth currents.

LABOR DAY COMMITTEE ELIMINATES BABY SHOW

Annual Feature of Industrial Celebration Omitted Because of
Paralysis Scare.

SHOW COMPLETE OTHERWISE

Festivities Will Begin Early and Last Until Late, With Interesting Program of Athletic Events and Other Amusements.

The committee of the Central Trades and Labor Council, charged with the duty of preparing a program of exercises for Labor Day, which will be celebrated this year at Forest Hill Park, has reported to the larger body that its work will be completed by tomorrow night.

Owing to the uneasiness created by the epidemic of infantile paralysis which is raging in New York and other Northern cities, the baby show, long an attraction of this celebration, will be omitted from the program this year. With this exception, the list of amusements will be as complete as on former occasions.

The program, beginning at 11 o'clock on the morning of Monday, September 4, and ending that night at 8 o'clock, will consist largely of athletic events and comic races. A number of prizes, ranging from a barrel of flour to pieces of jewelry, will be awarded to winners in the contests.

Special amusement features will be added to those already provided by the park management. Professor Irwin and his dog and pony show will be on hand, and the services of Polk Miller's Old South Quartet will be secured. No admission will be charged.

Much interest is being evinced in the occasion, and a record-breaking crowd is expected.

FOUGHT IN CELL

H. W. Frank, Locked Up on Drunkenness Charge, Attacks Fellow-prisoner, Charles Foster.

U. S. Riggs and H. W. Frank were arrested by Policemen Posnan last night on Broad Street on a charge of being drunk, disorderly and loitering in the street.

Frank was locked in a cell at the First Precinct Station with Charles E. Foster, who was being held there on a charge of drunkenness. Officers in the front of the station heard a disturbance in the cell room shortly after, and hurried back to find Frank beating Foster severely. Foster is said to have been damaged considerably about the face. An additional charge of being disorderly in the station house was entered against Frank by Detective Bertucci and Policemen Deskins, who rescued Foster.

HOUSE EXPECTED TO AGREE

Senate Accepts Conference Report on
Amendments to Federal Reserve Act.

WASHINGTON, August 26.—The conference report on amendments to the Federal Reserve bank act, permitting national banking associations to establish foreign agencies, liberalizing discount regulations and permitting member banks in small towns to handle insurance, was agreed to today by the Senate. The House is expected to accept it within a few days.

POST-GRADUATE DENTAL COURSE WELL ATTENDED

Medical College Holds Summer School
in Dentistry for First Time
in Its History.

For the first time in the history of the dental department of the Medical College of Virginia, a post-graduate course in dentistry has been given this summer, and highly satisfactory results have been obtained. For the past two weeks a number of dental practitioners have been receiving advanced instruction, and upon the completion of the course each will be given a diploma.

Next summer the course will probably be enlarged as to subjects taught, and the term will be lengthened. From the enthusiasm of the present class, a much larger number may be expected to attend.

Dr. J. A. C. Hoggan, dean of the School of Dentistry, originated the idea of a post-graduate course. The instructors were Dr. W. E. Cunniff, for several years a professor at the Royal College of Dental Surgeons, of Toronto, Can., prosthodontic dentistry; Dr. R. R. Byrnes, superintendent of the School of Dentistry of the Medical College of Virginia, operative work.

Duffy's For Summer Health

Summer is at hand—and summer complaint. For persistent colicky pains in the bowels, whether associated with constipation or occasional attacks of diarrhoea, a tablespoonful of

Duffy's Pure Malt Whiskey

in water before meals and on retiring helps to correct and relieve the condition. Being produced from malted grain, its tonic, antiseptic and sustaining properties are what is particularly needed to check summer complaint and insure a speedy recovery. Duffy's Pure Malt Whiskey improves the digestion and assimilation of the food, and by its nourishing and tonic action you will be relieved from many petty summer ills, if you

"Get Duffy's and Keep Well." At most drug-gists, grocers and dealers, \$1.00. If they can't supply you, write us. Useful household booklet free.

The Duffy Malt Whiskey Co., Rochester, N. Y.

Dr. Harry Bear, of Richmond, ex-dentist and conductive anaesthesia. In the class were Dr. C. H. Gifford, of Norfolk; Dr. J. Mortimer Hughes, of Richmond; Dr. G. H. McKown, of Ontario, Can.; Dr. D. H. Massey, Lynchburg; Dr. D. E. Rogers, of Richmond; Dr. Richard L. Thompson, of Richmond; Dr. S. R. Watson, of Henderson, N. C.; and Dr. A. C. Wright, of Richmond.

SAXON "SIX"

A big touring car for five people

In ten minutes time we can convince you that Saxon "Six" is the best car in its class.

Now we have no particular brand of sales talk to give you. And we won't go into a lengthy explanation of this or that feature.

Because we don't want to sell you on argument, but on performance. We believe you are more interested in deeds than words.

So we just ask you to consider for a minute or two what Saxon "Six" has actually done in both public competition and private use.

We believe that the performance of Saxon "Six" is the fairest and most conclusive proof we can offer to confirm our statement that Saxon "Six" is the best car at less than \$1,000.00.

First, let's look at Saxon "Six" through the eyes of the thousands and thousands of Saxon "Six" owners.

You will note that it is a frequent occurrence for them to mention its unusual gasoline economy, its uncommon freedom from need of repair service, its superlative strength and stability.

Now it may be that Saxon "Six" owners are prejudiced in favor of Saxon "Six." Perhaps their enthusiasm over Saxon "Six" has carried them away a little bit.

From one viewpoint, this very enthusiasm of Saxon "Six" owners is about as good an argument as any we can think of in favor of your buying a Saxon "Six." But in order to get also, let us forget for the time being what owners say and turn to the public performances of Saxon "Six."

Now, with these facts in mind, we want you to spend ten minutes at least at the wheel of Saxon "Six." More time would be better. But we are confidently and positively certain that ten minutes will be enough to convince you that Saxon "Six" is the best car at less than \$1,000.

It was not so long ago Saxon "Six" entered into competition with many higher priced cars in a noted hill climb in the East. It won this hill climb easily.

A stock model Saxon "Six" engaged a famous Western train in a speed duel over a 5,000 mile course. It defeated the train by a full fifteen minutes.

A stock model Saxon "Six" entered the demonstration contest at the San Diego Exposition motor demonstration show, and captured two firsts and a third place, though exceeded in both power and number of cylinders by higher priced competitors. It might be noted in this connection also, that Saxon "Six" was the only car which won the trophy in two events.

In this contest Saxon "Six" won the hill climb, won the relay race, and tied for third place in the quick "get away" event with a costlier car. It defeated one twelve cylinder car and two eight cylinder cars.

To establish its gasoline economy, 264 stock model Saxon "Sixes" driven by Saxon dealers, each traveling 300 miles without stopping, averaged 23.5 miles per gallon of gasoline.

To prove Saxon "Six" stability, strength and endurance, 38 stock model Saxon "Sixes" driven by dealers, raced in relay from New York to San Francisco in six days, eighteen hours and ten minutes.

The reason we are citing these records is merely that you may know that you can buy a car for less than \$1,000 which will give you just such service. That car is Saxon "Six"—\$815, f. o. b. Detroit. And there is not any other car for less than \$1,000 that will perform like that.

Now, with these facts in mind, we want you to spend ten minutes at least at the wheel of Saxon "Six." More time would be better. But we are confidently and positively certain that ten minutes will be enough to convince you that Saxon "Six" is the best car at less than \$1,000.
